## SUMMARY

---

Experienced Full Stack Developer with expertise in front-end and back-end technologies. Looking for an opportunity to apply my technical skills in developing efficient and scalable solutions. Strong track record of building responsive user interfaces, optimizing reusable components, and solving technical challenges effectively.

## WORK EXPERIENCE

---

**Web Developer** Mar 2025 – Present  
Raino Digi Media Mumbai, India

- Developed responsive user interfaces , improving user interaction by 25%.
- Streamlined UI development by creating reusable components, reducing development time by 30%.
- Integrated advanced business logic and real-time data, boosting application performance by 20% and increasing reliability by 15%.
- Deployed robust APIs and resolved 95% of technical issues within the first week, reducing system downtime by 30%.

**Software Developer Internship** Jan 2024 – Jun 2024  
Cloud Connection , Remote Mumbai, India

- Engineered user-friendly, responsive interfaces in React.
- Integrated real-time APIs to enhance system reliability.
- Utilized advanced coding practices for improved application performance and user engagement.

## EDUCATION

---

**Master of Science (M.Sc), Information Technology** Aug 2021 – May 2024  
M.L. Dahanukar College , Mumbai , India

- Specialization in Information Technology

**Bachelor of Science (B.Sc), Information Technology** July 2018 – April 2021  
Lords Universal College , Mumbai , India

- Relevant coursework in Web development, Networking .

## SKILLS

---

**Frontend:** HTML, CSS, Tailwind, JavaScript, React.js

**Backend:** Node.js, Express.js, Django

**Database:** MySQL, MongoDB, PostgreSQL

**Other:** Git, GitHub, Pandas, Power BI, Excel, Data Cleaning, EDA, ETL, Python

## PROJECTS

---

### Realtime Chat Application

- Engineered an interactive real-time chat application using React.js for the frontend, Socket.IO for real-time communication, and Express.js for the backend, resulting in a 50% increase in user engagement.
- Implemented features for seamless user messaging, which improved messaging response times by 40%, ensuring a smooth and responsive user experience.

### ToDo App

- Spearheaded the complete development cycle of a ToDo list application using React and Redux, from concept to deployment, shortening the overall project timeline by 20%.
- Introduced key features such as task creation, deletion, and status updates, leading to a 30% improvement in user task management efficiency.
- Utilized advanced technologies like React, Redux, Material-UI, JavaScript (ES6+), and HTML5/CSS3 to craft a robust, user-friendly interface, resulting in 15% higher user satisfaction ratings.

### Stock Market Predictions using LSTM Model

- Designed and implemented a machine learning model in Python for predicting future stock prices, achieving a model accuracy of 85%.
- Created a web application with Django for the backend and HTML, CSS, and JavaScript for the frontend, providing stock market predictions that increased forecast accuracy by 20%, driving better investment decisions.

### Store Sales and Profit Analysis

- Conducted an in-depth analysis of sales data using Python, identifying trends that contributed to a 15% increase in quarterly sales.
- Applied robust data cleaning, exploration, and visualization techniques, resulting in 20% faster reporting and clearer insights for business decision-making.

## CERTIFICATES

---

- Python Comprehensive Bootcamp (Beginner To Professional)
- SQL Masterclass: SQL for Data Analytics
- Data Analyst Boot camp 2023
- accenture Virtual Experience Program on Forage - August 2023
- pwc switzerland Virtual Experience Program on Forage - August 2023
- Programming with Python
- J.P. Morgan Software Engineering Virtual Experience on Forage - March 2024
- BCG Data Science Job Simulation on Forage - March 2024
- React: All You Need to Know with Practical Project
- Front-end Web Development - Jan 2025
