

TEJAS DHARMA KAMBLE

Full Stack Developer • MERN Stack • Next.js

Mumbai (Virar), Maharashtra • +91 99302 08155 • kambletejas1999@gmail.com • tejaskamble.in • [GitHub](#) • [LinkedIn](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ years of experience building production-grade web applications using React.js, Next.js, Node.js, and MongoDB. Hands-on experience with payment gateway integration (Stripe & Razorpay), authentication systems, and scalable state management using Redux Toolkit. Proven ability to independently architect and deliver end-to-end features in a professional environment. Available for Junior Full Stack or Frontend React Developer roles along Mumbai's Western Line.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), Redux Toolkit, RTK Query, Tailwind CSS, SCSS, HTML5, CSS3

Backend: Node.js, Express.js, RESTful APIs, Socket.IO

Database & Auth: MongoDB, MySQL, Firebase (Auth & Firestore)

Tools & Payments: Stripe, Razorpay, Git, GitHub, Postman, VS Code, Axios, Vercel, Docker (basics)

PROFESSIONAL EXPERIENCE

Web Developer • [Raino Digi Media](#)

Mumbai | March 2025 – Present

- Built and maintained production React.js applications with optimized component architecture and Redux Toolkit state management
- Developed a reusable component library used across multiple client projects, reducing UI development time
- Integrated Node.js/Express.js REST APIs with real-time data processing and end-to-end API deployment
- Proactively diagnosed and resolved production issues, ensuring consistent application stability and uptime

Software Developer Intern • [Cloud Connection](#)

Remote | Jan 2024 – Jun 2024

- Built responsive, cross-browser-compatible React.js interfaces using modern component patterns
- Integrated RESTful APIs and applied performance optimizations including code splitting and lazy loading
- Collaborated in agile sprints, participated in code reviews, and maintained technical documentation

PROJECTS

E-Commerce Platform (Production-Grade)

Next.js 14, TypeScript, Redux Toolkit, RTK Query, MongoDB, Firebase Auth, Stripe, Razorpay | github.com/tejaskamble99/mern-ecommerce-store

- Developed a full-stack e-commerce platform with authentication, cart management, order flow, and admin dashboard — built independently without following any tutorial structure
- Integrated Razorpay and Stripe with complete end-to-end checkout flow including payment verification and order confirmation
- Implemented coupon validation system with debouncing, Axios request cancellation, and real-time discount calculation
- Managed global state using Redux Toolkit with RTK Query API slices featuring caching, error handling, and optimistic updates
- Built Firebase Authentication synced with Redux state; structured API using Controller-Service-Repository pattern

TaskFlow — Collaborative Task Manager

Next.js 14, TypeScript, Socket.IO, Express.js, MongoDB, JWT, Tailwind CSS | github.com/tejaskamble99/Collaborative-Task-Manager

- Built full-stack real-time task management platform where updates appear instantly across all connected clients using Socket.IO — no page refresh needed
- Implemented JWT-based authentication with secure token handling and structured backend using Controller-Service-Repository pattern

- Delivered responsive dashboard with task prioritization (High/Medium/Low) and live status tracking

Stock Market Prediction App v2

Python, Django, TensorFlow, LSTM, JavaScript, Docker | github.com/tejaskamble99/stock-prediction-v2

- Developed LSTM neural network for stock price prediction with a Django REST backend and JavaScript frontend, containerized using Docker

Movie Discovery App

React.js, JavaScript, REST API | github.com/tejaskamble99

- Built a component-based React app consuming a third-party movie API with clean UI architecture, responsive design, and smooth UX for browsing and rating films

Interactive Game Platform

React.js, JavaScript | github.com/tejaskamble99

- Developed a multi-game React platform demonstrating advanced state management, component reusability, and smooth user experience across multiple playable games

To-Do List App

Next.js, React.js, JavaScript | github.com/tejaskamble99

- Built a task management app with Next.js showcasing SSR concepts, local state persistence, and clean UI interactions without a backend dependency

FREELANCE WORK

Frontend Developer • Vibrant Hive Agency

Mumbai | 2024 – 2025

- Built client's production business website — vibranthiveagency.in — from scratch using React.js and Vite, handling component architecture, responsive design, and iterative client revisions
- Delivered post-launch feature updates including navigation improvements, WhatsApp integration, and animation bug fixes via structured Git commits

EDUCATION

M.Sc. in Information Technology — M.L. Dahanukar College, Mumbai

Aug 2021 – May 2024

B.Sc. in Information Technology — Lords Universal College, Mumbai

Jul 2018 – Apr 2021

CERTIFICATIONS

- J.P. Morgan Software Engineering Virtual Experience — Forage (2024)
- Front-end Web Development with React — Practical Project (2025)
- BCG Data Science Job Simulation — Forage (2024)
- Accenture & PwC Virtual Experience Programs — Forage (2023)
